Title of the Program: Webinar on Internet of Things: Research Trends and User Authentication Issues

The Department of Computer Science and Computer application organised a State Level webinar on “Webinar on Internet of Things: Research Trends and User Authentication Issues” on July 15, 2020 in Google Meet platform.

Objective: The Internet of things describes physical objects that are embedded with sensors, processing ability, software, and other technologies that connect and exchange data with other devices and systems over the Internet or other communications networks. It is a must for the students of Computer Science and Computer Applications to understand the subject and have a good idea about user authentication.

Content: The main speakers of the event were Dr. Suparna Biswas, Associate Professor, Department of Computer Science and Engineering, Maulana Abul Kalam Azad University of Technology and Dr. Utpal Roy, Professor, Department of Computer and System Science, Viswa-Bharati University. The convenors of the program were Dr. Anandarup Roy and Dr. Anindita Roychaudhuri Heads of Departments of both the departments.,

At the outset, Dr. Anindita Roychoudhury introduced the subject and welcomed all dignitaries. The Principal of the college, Dr. Urmila Ukil in her welcome address thanked the distinguished speakers and delivered a valuable speech about IOT. Dr. Sudeshna Chatterjee, the coordinator of IQAC also welcomed all participants.

Dr. Suparna Biswas, in her elaborate speech explained the research trends in this field and dealt with the user authentication issues. Dr. Utpal Roy also explained in details the idea of Internet of Things.
