Lincoln University College, Malaysia**

Resource Persons:

Prof. Basab Chaudhuri, Vice Chancellor, WBSU

Dr. Silanjan Bhattacharyya, WBSU

Prof. Amitabha Nandi, School of Tropical Medicine, Kolkata

Prof. Goutam Sen, University of Calcutta

Dr. Sandeep Poddar, Lincoln University College, Malaysia

Dr. Debaprasad Mandal, WBSU

Prof. Kelnosuke Okamoto, Okayama University, Japan

Dr. Subhash Chandra De, Saroj Gupta Cancer Hospital

Dr. Suman Kanungo, NICED, Kolkata

Dr. Shankar Bhattacharyya, SKBU, Purulia

Dr. Anirban Ash, Burdwan University

Dr. Rakesh Tamang, University of Calcutta

About the Conference:

Contemporary health issues and environmental impact are two of the most pressing and interrelated challenges facing our world today. The rise of chronic diseases, such as obesity, heart disease, and diabetes, are major health concerns that are affecting millions of people globally. At the same time, human activities, such as industrialization, urbanization, and deforestation, are having a profound impact on the environment, leading to climate change, air and water pollution, and loss of biodiversity. Addressing these issues requires a holistic approach that recognizes the interdependence of human health and the environment and the need for collaborative efforts to ensure a sustainable future.

Today's conference provides us with a unique opportunity to come together and collaborate towards a better, more equitable future for all. So, let us join hands and make the most of this gathering, as we delve into the important and pressing issues that will shape our world in the years to come.
