Title of the Program: ONE DAY INTERNATIONAL WEBINAR ON “RESEARCH PUBLICATIONS”

The IQAC of Sarojini Naidu College for Women, Dum Dum Kolkata, organized One Day International Webinar on “Research Publications” on 31st August, 2020 via the Google Meet platform and live streamed online on the College’s official Youtube channel for the audience.

Objective: The objective of the webinar was to generate an awareness as to update various stakeholders such as research fellows, students and faculty on the modern norms and ways of research publications, since the way research is done and presented has also undergone extensive transformation in recent times.

Content: The event was inaugurated by our respected principal madam- Dr. Urmila Ukil. Our chief guest was Prof. Basab Chaudhuri, Vice Chancellor, West Bengal State University. Our eminent speakers for the day were Dr. Sandeep Poddar, Senior Research Director, Lincoln University College, Malaysia and Dr. Priyank Pravin Patel, Assistant Professor, Department of Geography, Presidency University, Kolkata.

The event saw 250 registered participants from colleges, independent research institutions and universities across West Bengal as well as other states of India including but not limited to Odisha, Telengana, Delhi, Tamil Nadu, Uttar Pradesh, Bihar, and Assam. Participants ranged from college and university faculty, private educational institute faculty, research scholars, and students.

During the first technical session, Dr. Sandeep Poddar talked about plagiarism in research and scientific publications. The various types of plagiarism that there are and how an author may unwittingly commit such an act was explained in detail by Dr. Poddar. He also talked about the process of authenticating every literary work with plagiarism checkers.

During the second technical session, Dr. Priyank Patel discussed about the way to approach scientific literature and publication, ways to access various literature databases and the process of manuscript preparation. Dr. Patel explained in depth the current methods by which research publications are evaluated; the criteria and norms to be followed by all authors both technical and ethical when designing a publication. He gave practical examples of databases useful for publication and efficient ways to extract data from them.

Outcome: The cumulative outcome of all the technical sessions was transformational nature of research and consequently that of research publications along with publication ethics and responsibilities were explained to the audience for their better understanding and use in future prospects. From the feedback responses of the participants it is anticipated that the technical sessions of the event proved fruitful for them and enhanced their knowledge on the concerned subject.
